

GET READY FOR A CHANGE

Cree® LED Lighting Solutions Approved for Go Green Initiative

The cities of tomorrow are starting to redefine familiar lighting. However, selecting the right solution to replace old, unreliable fixtures can be challenging. At Cree, we believe choosing better light should be easy, so we've designed LED solutions to meet the needs of everyone involved in the process: the owner, the installer, as well as the people who experience them. **And now, they are available through a NY statewide piggyback contract.**

LED SOLUTIONS AVAILABLE WITH THE NY STATEWIDE PIGGYBACK CONTRACT:

RSW Series LED Street Light

- DLC Premium
- Up to 127 Lumens per Watt
- Color Temperature: 2700K, 3000K, 4000K, 5000K
- Limited Warranty: 10 years

Office

Education

Healthcare

Parking

Flood Lighting

Police

The NY Statewide Piggyback Contract:

We're pleased to announce Best LED Group has been awarded the contract to provide LED interior and exterior lighting for the Town of Hempstead's "Go Green" initiative. Contract resolution 16-2017. The Town of Hempstead is the nation's largest township. In fact, it's larger than several States and major U.S. cities by population. Best LED Group, of Hauppauge, NY will provide a streamlined process to purchase Cree lighting fixtures through this NY statewide piggyback contract without having to go out to bid — quickly and easily reducing your energy costs 50 percent or more. Best LED Group will be happy to provide an educational no obligation presentation of all fixtures on contract, as well as applicable utility rebates available.

NOTE: if your municipality would like to purchase a larger quantity than that listed in bid, pricing will be negotiated downward for that larger quantity. Full project funding available with no out of pocket capital expense or bonding. Doesn't affect your municipal credit rating or debt load. Call Best LED Group for more information.
